

# Swine

## 20% Swine Starter (pelleted)\*

Champ Chow 20% Swine Starter is a protein-rich, pelleted feed designed with young piglets in mind. Our blend of high-quality ingredients promotes early feed intake and boosts gains to get piglets off on the path to the winner's circle!

## 17.5% Swine Grower (ground)\*

Champ Chow 17.5% Swine Grower is a higher-protein option for all show pigs, formulated to promote growth and muscle development across a wide range of genetics.

## 16% Swine Finisher (ground)\*

Champ Chow 16% Swine Finisher is a lower-protein option for finishing show pigs. It's formulated for those show pigs that may need to be softer in appearance but still need more rib and body structure.

*\*Swine feeds include Actigen® BAC, Integral A+®, and high levels of amino acids.*

# Sheep

## 20% Lamb Creep (pelleted)\*

Champ Chow 20% Lamb Creep is a pelleted feed for young show lambs through weaning. Our lamb creep includes only high-quality ingredients, including bioavailable trace mineral sources and a healthy dose of Alltech's Bio-Mos® to aid in gut health and overall immunity.

## 17% Lamb Grower (texturized)\*

Champ Chow 17% Lamb Grower is a medicated, textured feed formulated with growing lambs in mind. Our lamb grower is aimed for lambs that need to put on muscle mass or add needed shape to compete in the show arena. This uniquely designed feed provides the proper protein and energy needed for all growing lambs.

## 15% Lamb Grower (texturized)\*

Champ Chow 15% Lamb Grower is a medicated, textured feed formulated to provide your lambs with a smooth and firm cover by feeding key ingredients such as barley, steam-flaked corn, and protein pellets. Our 15% grower should be the desired feed when a smaller amount of cover is wanted on your show animal.

*\*Sheep feeds include ammonium chloride, Bio-Mos®, Alltech® trace minerals, and B vitamins and are medicated with Deccox to guard against coccidiosis.*

# Meat Goat

## 16% Meat Goat (texturized)\*

Champ Chow 16% Meat Goat is a texturized, non-medicated complete feed designed for flexible feeding. From creep to finish, Champ Chow will help you achieve your animal's full potential. Formulated and designed with every breeder in mind, this feed provides superior nutrition and ensures the right look and bloom for meat goats. Contains Alltech's Bio-Mos® to aid in gut health and overall immunity, B vitamins to support a healthy appetite, skin, and hair coat, and ammonium chloride for the prevention of urinary calculus, and blended with steam-rolled barley.

*\*Goat feeds include ammonium chloride, Jefe B vitamins, Bio-Mos®, and Alltech® trace minerals.*

# Beef

## 14% Beef Creep (txt)\*

Champ Chow 14% Beef Creep is a highly palatable, coarse-texturized sweet feed for young beef calves. This feed encourages early feed consumption and gains in suckling and post weaned beef calves. Contains fly control additive and Alltech's Actigen® BAC technology to support gut integrity, optimize animal performance and help calves reach their genetic potential.

## 13.5% Fresh & Full (txt)\*

Champ Chow 13.5% Fresh & Full is a flexible, low-energy diet that helps you develop your show cattle like a professional. With high-fiber feedstuffs such as cottonseed hulls, this feed is ideal for giving beef heifers time to mature, or for use as a tool to reach or hold your market animals' target weight.

## 16% Final Drive (txt)\*

Champ Chow 16% Final Drive is a coarse-textured sweet feed. Steam-flaked corn and barley provide a high level of calories. This is a balanced feed, formulated for optimal growth and development of show cattle during finishing.

*\*Beef feeds include Actigen® BAC, Alltech® trace minerals, and Yea-Sacc® and are medicated with monensin to guard against coccidiosis.*

# Dairy

## 40% Dairy (pelleted)\*

Champ Chow Dairy 40% is a high protein, all-natural supplement that promotes optimal milk production and a feminine show appearance in dairy cattle. Champ Chow Dairy 40% is fortified with chelated minerals and contains additives to maximize feed efficiency in high-fiber diets, promote hydration, encourage intake, and support a healthy rumen microbiome.

*\*Dairy feeds include Actigen® BAC, Alltech® trace minerals, and Fibrozyme®.*
